

„The Environmental Protection Fund of the Federation of Bosnia and Herzegovina was established by the FBiH Government and is actively involved in defining priorities, financing activities and monitoring the implementation of environmental and other projects. The Fund participates in providing support to the Ministries in the phase of preparation for the implementation of the legal regulation, i.e. strategies and action plans from the institution's field of activity.

Fund is established for the purpose of financing of the preparation, implementation and development of programmes and projects and similar activities in the field of conservation, sustainable use, protection and improvement of the environment, and in the field of energy efficiency and use of renewable energy sources.

In the period since its foundation, the Fund has implemented more than 1,000 projects in the field of water, air, soil, biodiversity, energy efficiency, and strengthening public awareness. Many of the projects were implemented in cooperation with international partners operating in BiH, according to the procedures of the international financier.“

We are interested in this fields:

- **Energy transitions and efficiency** (knowledge transfer at the institutional level, sectoral approach for energy management in all sectors of consumption, experiences in the field of Energy Management Information System – EMIS)
- **Waste management** (harmonization of the legal framework in the field of waste management with EU directives and adoption of planning and implementation documents, financial mechanisms necessary for the implementation of the legal and implementation framework, monitoring data on the generation and movement of waste, control, verification, and reporting obligations to the EU)
- **Cooperation with the same or similar institutions in the region** (*The Environmental Protection and Energy Efficiency Fund*)
